On November 7, 2013, the Circuit Court of the Second Judicial District in and for Leon County, Florida (the "Court") entered an Order Granting Approval of Settlement Agreement and Stipulation (the "Order") in the matter titled ASC Recap, LLC ("ASC Recap") v. Texhoma Energy, Inc. The Order and the Stipulation for Settlement of Claims, dated October 23, 2013, between the Company and ASC Recap (the "Stipulation"), provides for the full and final settlement of ASC Recap's \$1,482,593.00 claim against the Company in connection with past due amounts owed to creditors in connection with attorney's fees, consulting fees, unpaid wages, and acquisition services which ASC Recap purchased from third parties pursuant to Receivable Purchase Agreements, between July 20, 2013 and September 23, 2013 (the "Claim").

Further, an additional 312,146,000 shares were issued to Tarpon Bay, which acquired rights to the shares from ASC Recap. The shares of common stock issued to ASC Recap were exempt from registration pursuant to an exemption provided by Section 3(a)(10) of the Securities Act of 1933, as amended, as the issuance of securities was in exchange for bona fide outstanding claims, where the terms and conditions of such issuance were approved by a court after a hearing upon the fairness of such terms and conditions. 5) Financial Statements

The Issuer is providing the following financial statements for the most recent period ending June 30, 2016: balance sheet; statement of operations; statement of cash flows; and financial notes. These financial statements are incorporated by reference herein and attached as Exhibit 1.

6) Describe the Issuer's Business, Products and Services

Texhoma Energy, Inc. was originally formed as a Nevada corporation on September 28, 1998 as Pacific Sports Enterprises, Inc. Our business objective was to own and operate a professional basketball team that would be a member of the American Basketball Association. The American Basketball Association was not successful in organizing the league, and consequently the member teams ceased operating activities in 1999. Thereafter, we were dormant without any business operations until October 20, 2000. In May 2001, we changed our name to Make Your Move, Inc. and on September 20, 2004, we changed our name to Texhoma Energy, Inc. in connection with our change in business focus to oil and gas exploration and production.

A. A description of the issuer's business operations;

Texhoma is an oil and gas company with a long history of acquisitions and divestitures. For example, on November 5, 2004, we entered into a Sale and Purchase Agreement with Capersia Pte. Ltd., a Singapore company ("Capersia"), to acquire 40% of an oil and gas exploration license operated by Black Swan Petroleum Pty. Ltd. ("Black Swan") and its wholly owned subsidiary Black Swan Petroleum (Thailand) Limited ("Black Swan Thai"). Black Swan Thai owned the license, permits and title to a petroleum concession in the Chumphon Basin in the Gulf of Thailand, referred to as "Block B7/38" (the "Concession").

Black Swan recommenced exploration operations of the Concession and Black Swan drilled two exploration wells in February and March 2005, which proved void of commercially viable hydrocarbons. In June 2005 after completion of the exploration activities, the ventures decided to discontinue the exploration efforts in Thailand and relinquished the Concession back to the government of Thailand. On January 20, 2006 we divested our shareholding in Black Swan and Black Swan Thai.

After the exploration venture in Thailand the Board of Directors of the Company decided to shift its focus to domestic oil and gas exploration and production, with a particular focus on south Louisiana and east Texas, including near-shore Gulf of Mexico.

On February 2, 2006, we executed a Sale and Purchase Agreement (the "Clovelly SPA") with Sterling Grant Capital, Inc. pursuant to which we acquired a 5% (five percent) working interest in the Clovelly South prospect (bringing our total working interest to 11%) located in Lafourche Parish, Louisiana. As a result, the Company agreed to fund the work program for the Clovelly South project in accordance with the Joint Operating Agreement for the property. The Allain-Lebreton No. 2 well was drilled and plugged and abandoned in September 2006.

On March 15, 2006, our wholly-owned subsidiary, Texaurus Energy, Inc., which was formed in March 2006 as a Delaware corporation ("Texaurus"), entered into a Sales and Purchase Agreement with Structured Capital Corp., a Texas corporation to purchase certain oil and gas leases in Vermillion Parish, Louisiana. The 8% working interest (5.38167% net revenue interest) in the Intracoastal City field was acquired for a) two million five hundred thousand dollars (\$2,500,000) and b) the issuance of 37,500 (post 1:1,000 reverse split) shares of our common stock.

On March 28, 2006, Texaurus entered into a Securities Purchase Agreement ("Securities Purchase Agreement") with Laurus Master Fund, Ltd. ("Laurus"); a Registration Rights Agreement with Laurus; entered into a Master Security Agreement with Laurus; sold Laurus a Secured Term Note in the amount of \$8,500,000, and entered into various other agreements. Additionally, in connection with the closing, we issued Laurus a Common Stock Purchase Warrant to purchase up to 10,625 (post 1:1,000 reverse split) shares of our common stock at an exercise price of \$40.00 per share. In addition, Laurus can acquire up to 961 shares of Texaurus' common stock at an exercise price of \$0.001 per share, representing 49% of Texaurus' outstanding common stock.

On March 28, 2006, with an effective date of January 1, 2006, Texaurus closed a Sales & Purchase Agreement to purchase certain interests in the Barnes Creek gas field and the Edgerly field from Kilrush Petroleum, Inc. Texaurus paid the \$5,225,000 purchase price with proceeds received from its sale of the Secured Term Note with Laurus.

During the period through September 2011, Texhoma entered into a series of agreements with Laurus disposing of most of its oil and gas assets in satisfaction of the obligations of its then subsidiary, Texaurus, and Texhoma's corporate guarantee to Laurus for the debts of the subsidiary was released. Texaurus was divested in September 2011.

Texhoma is continuing in this tradition of acquisition and is exploring several opportunities. In furthering this pursuit, on August 5, 2014, the Company formed a wholly owned subsidiary, Texhoma Holding Company. On August 12, 2014, the Company purchased for \$8,400 a 0.016598% royalty interest in five oil wells located on the Shooter 916 lease located in Ochiltree County, Texas which have existing oil and gas production. Effective September 1, 2014, the Company purchased for \$5,600 a 0.25% overriding royalty interest in the Tonto North 390 B #3 well located in Scurry County, Texas, which has existing production.

Additionally, the Company has acquired various non-operated working interests in eight (8) wells located in Gregg and Upshur Counties, Texas. The working interest ownership interest percentages vary between .053985% and .54487%. The wells are operated by Quantum Resources Management, LLC of Houston, Texas. Combined, these wells at one time produced an average of approximately 280,000 cubic feet per day of natural gas and 8 barrels of oil per day over a six month period In the past.

On January 9, 2015 the Company entered into an agreement with Kris Kon A/S and Kris Kon Oil Fund, FT-SV that the Company would acquire USD500,000 of oil and gas interests from Kris Kon and further that Kris Kon would assist the Company in acquiring an additional \$3,500,000 of oil and gas interests over a period of 24 months. On May 6, 2015 this agreement was cancelled, mutually relieving both parties of any and all obligations that may have been related to the agreement.

- B. Date and State (or Jurisdiction) of Incorporation: Incorporated on September 28, 1998 in Nevada.
- C. The issuer's primary SIC code is 1311; there is no secondary SIC code.
- D. The issuer's fiscal year end date: September 30th
- E. Principal products or services, and their markets;

Historically our focus has been oil and gas exploration and production. The market for oil and gas exploration services is highly competitive, and we expect competition to intensify in the future. Numerous well-established companies are focusing significant resources on exploration and are currently competing with us for oil and gas opportunities. Additionally, there are numerous companies focusing their resources on creating fuels and/or materials which serve the same purpose as oil and gas, but are manufactured from renewable resources. Therefore, as part of the company's ongoing strategy it will evaluate and may invest in non oil and gas activities as they arise.

TEXHOMA ENERGY, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Three and Nine Months Ended June 30, 2016 and 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying interim unaudited consolidated financial statements and footnotes of Texhoma Energy, Inc. and its subsidiary (the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) and applicable rules and regulations of the Securities and Exchange Commission regarding interim financial reporting. The financial statements reflect all adjustments that are, in the opinion of management, necessary to fairly present such information. All such adjustments are of a normal recurring nature. Although the Company believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description of significant accounting policies normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company’s Annual Report filed on the OTC Markets. The accompanying unaudited financial statements reflect all normal recurring adjustments necessary to present fairly the financial position, results of operations, and cash flows for the interim periods, but are not necessarily indicative of the results for any subsequent quarter or the entire year ending September 30, 2016.

Organization and Business - Texhoma Energy, Inc. (“Texhoma” or the “Company”) has been engaged in the acquisition, exploration and development of crude oil and natural gas properties. In March 2006, Texhoma incorporated a subsidiary in Delaware, Texaurus Energy, Inc. (“Texaurus”) for the same purposes. During the years 2008 through 2011, the properties owned by Texaurus lost significant production and the Company negotiated foreclosure with the lender, rendering the investment in the subsidiary valueless. In September 2011, the shares of Texaurus were conveyed to an unrelated third party. The Company has limited current operations and actively seeks replacement assets. Our common stock currently trades under the symbol “TXHE” on the Over the Counter Pink Sheets (“OTC PK”).

On August 5, 2014, the Company formed a wholly owned subsidiary corporation, Texhoma Holding Company (“Holding”) incorporated in Texas. Holding acquired several oil and gas royalty and working interests.

On June 20, 2016, Gilbert Steedley, our CEO and Sole Director resigned and William Simmons was appointed as interim CEO and Director.

Principles of consolidation - The consolidated financial statements include the accounts of Texhoma Energy, Inc. and its wholly owned subsidiary, Texhoma Holding Company. All significant intercompany transactions, accounts and balances have been eliminated in consolidation.

Use of Estimates – Texhoma’s financial statement preparation requires that management make estimates and assumptions which affect the reporting of assets and liabilities and the related disclosure of contingent assets and liabilities in order to report these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

2. GOING CONCERN ISSUES

We cannot provide any assurances that the Company will be able to secure sufficient funds to satisfy the cash requirements for the next 12 months, nor that it will be successful in its endeavors to revive its oil and gas activities. The inability to secure additional funds would have a material adverse effect on the Company.

These consolidated financial statements are presented on the basis that the Company will continue as a going concern. No adjustments have been made to these consolidated financial statements to give effect to valuation adjustments that may be necessary in the event the Company is not able to continue as a going concern. The effect of those adjustments, if any, could be substantial.

TEXHOMA ENERGY, INC. AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Three and Nine Months Ended June 30, 2016 and 2015

2. GOING CONCERN ISSUES (continued)

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America which contemplate continuation of the Company as a going concern. The Company has incurred \$13,262,523 in cumulative losses to date. Further, the Company has inadequate working capital to maintain or develop its operations, and is dependent upon funds from its stockholders and third party financing.

These factors raise substantial doubt about the ability of the Company to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties. There is no assurance that the Company will receive the necessary capital required to fund its acquisition and exploration plans.

3. STOCKHOLDERS' DEFICIT

During the nine months ended June 30, 2016 the Company issued ASC Recap (RECAP) and its assigns a total of 312,146,000 shares of common stock pursuant to the October 23, 2013, Settlement Agreement and subsequent Court Order on November 7, 2013 (Note 5). The shares are being sold by ASC and 75% of the net proceeds will be used to settle the outstanding debts as ordered by the court.

On December 29, 2015 the Company amended its Articles of Incorporation to increase the authorized common stock to 2,500,000,000 shares.

4. STOCK OPTIONS AND WARRANTS

Costs attributable to the issuance of stock options and share purchase warrants are measured at fair value at the date of issuance and offset with a corresponding increase in 'Additional Paid in Capital' at the time of issuance. When the options or warrants are exercised, the receipt of consideration is an increase in stockholders' equity. There was no stock option activity during the nine months ended June 30, 2016 and at June 30, 2016 there were no stock options outstanding. On June 20, 2016 we engaged William M. Simmons to act as interim CEO and issued 500,000 common stock warrants at par value of \$0.0001 to Mr. Simmons at an exercise price of \$0.0001 for a term of two years. As of June 30, 2016 the 500,000 common stock warrants remain outstanding.

5. CONVERTIBLE SETTLEMENTS PAYABLE

On November 7, 2013, the Circuit Court of the Second Judicial Circuit for Leon County, Florida approved the October 23, 2013 Settlement Agreement, entered into between the Company and ASC Recap, LLC (RECAP) whereby a total of \$1,482,593 of outstanding debts were acquired by RECAP from various creditors in July 2013. In satisfaction of the outstanding debts acquired by RECAP, RECAP is issued shares of our common stock at a 25% discount to market ("Settlement Shares") in various tranches and from which 75% of the proceeds from the sale of these shares by RECAP will be used to satisfy the outstanding debts. The aggregate fair value amount associated with the issuance of these shares is estimated to be approximately \$2,075,000. The exact number of Settlement Shares to be issued pursuant to the Settlement Agreement is indeterminable, and RECAP is precluded from owning more than 9.99% of the Company's common stock at any given time. RECAP does not bear the risk of market loss. The difference between the amount of proceeds used to satisfy the outstanding debts and the fair value of the common stock shares issued will result in a loss on debt settlement.
